Behind the Sanctuary Renovation

My Dear Family in Christ:

Objective: By the grace of God, we aspire to immediately put into operational mode a large annex to our PG campus, what we call, “Behind-the-Sanctuary” for multiples purposes: 1) to glorify God through a clean, neat, ordered space; 2) to strengthen our current witness to Him through Jesus Christ; 3) to advance God’s kingdom in yielded human hearts; 4) to give greater utilization of existing spaces here; 5) to open up greater possibilities for kingdom ministry.

We anticipate the professional contractor, Mosaic Construction/Mr. Johntell Jones, and a crew of professionals to do the work, starting mid-January 2021, with prayerful completion by mid-March 2021. (I know the high-quality and professionalism of this company, as they have done recent work at my home.)

Mosaic Construction has knowledge of the scope of the work to be done. While awaiting a formal, printed estimate of material and labor, I anticipate total costs of approximately \$125,000.00, though it might exceed that amount depending on many unknown factors.

We shall commence raising the necessary funds for the project ourselves, without resorting to a bank loan, on the third Sunday, January 17, 2021.

Yes, I am aware that significant numbers of our PG Family are still away due to Covid-19. I am further aware that many are facing tough economic times. I am also aware that Winter (snow and ice) might seem a curious time to generate extra funds. Finally, I concede that, humanly speaking, generating this \$125K amount in a such short time will call upon us to make sacrifices for a grand, noble, high, enduring cause. (I just took away 4 excuses!) Yet, with God, all things are possible!

By God's grace and power, Pastor and First Lady will each contribute \$1,000.00 toward the costs, beyond our tithes! Prayerfully and sacrificially, I ask that 125 PG members join us at the \$1,000.00 level. Do your best! If we commit this project to the Lord, He promised to supply our needs!

Scope of Project:

- **Install new Roof – tar, pitch the flat roof for better drainage**
- **Install new Ceiling**
- **Tear out molded Walls in 2 side Rooms**
- **Wet Vac the drips and standing water in Large Room**
- **Throwaway Debris throughout (old pews, carpet, wood, items, etc.)**
- **Enlarge 2 existing Bathrooms – 4 feet deeper)**
- **Check/install Bathroom Plumbing**
- **Install 2 new Bathroom Urinals for Men; 2-3 Toilets for Women**
- **Install Vanity and Mirror for each Bathroom**
- **Paint Walls of Large Area in Middle in one color**
- **New HVAC System - connect to existing vents**
- **Frame area in Front**
- **New locking system on 2 Doors – Entrance/Exit**
- **“Whatever” else is necessary!**
